

ANIMAL PROTEINS

Meat & Bone Meal · 45-55% Protein

GT-AP-07

One clear protein-and-mineral product family with distinct 45% and 55% crude-protein grades.

ONE PRODUCT FAMILY - 45-55% PROTEIN GRADES

ISSUED 2026-08-26

TECHNICAL PROFILE

REFERENCE VALUES - GRADE BASIS SHOWN IN EACH ROW

AVAILABLE PROTEIN GRADES	45% or 55% crude protein
45% GRADE COMPOSITION	Protein min. 45%; fat min. 6%; ash max. 42%
45% GRADE CONTROLS	Moisture max. 10%; calcium max. 14%; phosphorus min. 3.5%
55% GRADE COMPOSITION	Protein min. 55%; fat max. 14%; ash declared 26%
55% GRADE CONTROLS	Moisture max. 6%; calcium 5-6%; phosphorus declared 3%
SHELF LIFE	45% grade: 12 months; 55% grade: 12 months with antioxidant

INTENDED APPLICATIONS

- COMPOUND FEED
- FERTILIZER

SUPPLY FORMAT

45% grade: raffia big bags, approximately 1,350-1,500 kg net.
55% grade: format and nominal weight are stated in the quotation and contract specification.

PROFILE CONTROL

The 45% grade is bovine material. For the 55% grade, species composition, antioxidant system and digestibility basis are confirmed before contracting. Permitted use, destination eligibility, final grade specification and lot Certificate of Analysis govern supply.

IMPORTANT

This producer-neutral profile supports product discovery and is not a contractual guarantee. The confirmed quotation, selected technical specification and lot Certificate of Analysis govern each supply.
